CAREER OBJECTIVE

Aspiring Data Scientist and Junior AI Engineer with hands-on experience in Machine Learning, Predictive Modeling, and Full-Stack AI Application Development. Strong expertise in Python, Data Analysis, Model Training, and Classification Algorithms. Proven ability to build and optimize end-to-end AI solutions achieving up to 90% model accuracy. Seeking an entry-level role in Data Science, Machine Learning, or Artificial Intelligence to deliver data-driven solutions in a growth-oriented organization.

WORK EXPERIENCE

Artificial Intelligence Intern

GenZ Educatewing

Jul 2025 – Sep 2025

- Built and optimized AI/ML models using Python and Scikit-learn, improving prediction performance by 20%.
- Implemented a YOLO-based object detection system achieving 90% real-time accuracy and performed data preprocessing and evaluation.

PROJECTS

Tech Job Market Analysis and Salary Prediction

Python, Pandas, NumPy, Scikit-learn, Power BI

Built a regression-based salary prediction model (90% accuracy) and created an interactive Power BI dashboard for hiring and salary insights.

Applied EDA and feature engineering to improve model performance and prediction reliability.

Multi-Disease Prediction System

Python, Scikit-learn, Pandas, NumPy, React

Developed a full-stack AI healthcare system predicting Heart, Liver, and Diabetes diseases with 89.2% accuracy and dashboard-based risk insights.

Implemented secure user input handling and optimized classification models for improved reliability.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science

Panimalar Engineering College, Chennai

2026 – Present

TECHNICAL SKILLS

Programming: Python, Java, SQL

Artificial Intelligence & Data Analysis: Regression, Classification, Neural Networks, Feature Engineering, Model Evaluation, EDA, Data Cleaning, Statistical Analysis

Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Frontend & Visualization: React, HTML, CSS, JavaScript, Power BI

Database & Tools: MySQL, Jupyter Notebook, Google Colab, VS Code, Git, GitHub

SOFT SKILLS

Analytical Thinking | Problem Solving | Communication
| Teamwork | Adaptability | Time Management

CERTIFICATIONS

- Python for Data Science – NPTEL (2025)
- Oracle Generative AI – Oracle
- Deep Learning and AI – Infosys Springboard
- ServiceNow Micro-Certification – ServiceNow
- Data Science – NASSCOM FutureSkills
- Foundations of Prompt Engineering – AWS

ACHIEVEMENTS

- Achieved 90% accuracy in Salary Prediction model through regression optimization.
- Improved AI model performance by 20% during internship through algorithm tuning.
- Built a multi-disease prediction system achieving 89.2% classification accuracy.
- Computer Science Topper – Higher Secondary Certificate (HSC).
